solstice HEAT PUMPS

The Solstice Inverter Extreme is the latest addition to our Inverter Series line of Solstice Heat Pumps, giving us the broadest line-up of air-to-water heat pumps on the market.

The Solstice Inverter Extreme is a "cold climate" air-source heat pump for hydronic heating, cooling, and domestic hot water applications, and is capable of high performance heating operation in outdoor temperatures as low as -22°F, and can deliver reliable water temperatures as high as 130°F.

Standard Features

- Supplies Low Temperature Water for Heating & Chilled Water for Cooling
- Reliable Toshiba EVI Inverter Compressor
- High Performance Heating in Cold Climates Extremes Down to -22°F
- 42-130°F Delivered Water Temperatures (Controls on Supply)
- Available in 4-ton model
- Domestic Hot Water Offset
- Monobloc Design (No On-Site Refrigerant Charging)
- Keeps All Refrigerant Outside the Occupied Space
- Freeze Protection
- Low Amp Draw with Ultra Quiet Operation
- Modbus Compatible
- User Friendly Advanced Color Touch Screen Control
- Precision Temperature Control Platform
- Inverter Driven Fan Motors
- Industry Leading 10-Year Compressor Warranty & 5-Year Parts Warranty for Certified Contractors
